

Contracts Manager Job Description

Project Manager / Contracts Manager Designate - Demolition

A long-established Hampshire based family Demolition Contractor seek a Project Manager / Site Manager to eventually elevate to Contracts Manager. Whilst experience in the demolition sector would be an advantage, candidates with the ability and enthusiasm to transition from the Civil Engineering or Construction sector to the specialist sector of Demolition, Dismantling, Decommissioning and Enabling Works would be equally considered. You will be required to manage a wide variety of demolition and enabling works projects, the majority of which are located in and around Greater London / home counties.

You will work alongside an existing, highly experienced team who will support the right candidate in the transition from Civil Engineering / Construction. In addition, appropriate training will be provided to facilitate the transition. You will work on some high profile, technically demanding projects in some of the most sensitive boroughs of the capital.

What we require;

1. Min HNC / HND Civil Engineering or Construction.
2. Min 5 years' experience ideally in and around Greater London.
3. Proficient in the use of MS Outlook, Excel, Word, Project and Visio.
4. Contractually and commercially aware.
5. Well presented with excellent communication and people skills.
6. CSCS Manger & SMSTS.
7. IOSH Managing Safely would be an advantage.

What you will receive from us;

A competitive salary
Company vehicle
Generous bonus scheme
Company pension scheme
Private medical insurance
